

R E M A R K S

Claims 1 to 5 remain in in the case.

With this amendment, applicant has amended Claim1 to overcome the objection thereto under 35 USC 112. This amendment, as discussed with the Examiner during the telephone interview, deletes the use of the term "recovering energy" and instead defines the method as one for recovering a polyvinyl butyral polymer from glass windshields and using the polyvinyl butyral polymer as a fuel to replace the fossil fuel in an energy creating plant.

In view of the above amendment, it is now believed that the claims are in order for allowance and such action is respectfully solicited.

Respectfully,

Eric Fincham
Reg. 28,201
